

- 1) Cut along the black line to remove the border.
- 2) Fold along the red dashed line, printed side out. Keep folded.
- 3) Cut a slit along the heavy blue dashed line.
- 4) Open flat, then fold along the slit and orange dashed lines, printed side out. Keep folded.
- 5) Fold, then unfold, each way along the green dashed lines to create lines.
- 6) Open along the slit as you fold along the red dashed lines (see figures at the right)
- 7) Fold over to make book.

Make Your Own Picture Book

If you have six favorite digital images around, now you can make them into a mini picture book that can fit in your pocket or wallet. The images may be in JPEG, PNG, GIF, BMP, TIFF format. Images that are around 400 pixels in each dimension will print best. Larger images will be automatically downsampled to keep the resulting picture book file from getting too large. Smaller images may print too small to look good.

NOTE: Depending on the speed of your internet connection, this process may take several minutes to complete. Please be patient.

Enter a title for your book (must be shorter than 50 characters, around a dozen words or so, or it will be truncated):

Image 1:	<input type="button" value="Browse"/>	<input type="button" value="See Picture Collection"/>
Image 2:	<input type="button" value="Browse"/>	<input type="button" value="See Picture Collection"/>
Image 3:	<input type="button" value="Browse"/>	<input type="button" value="See Picture Collection"/>
Image 4:	<input type="button" value="Browse"/>	<input type="button" value="See Picture Collection"/>
Image 5:	<input type="button" value="Browse"/>	<input type="button" value="See Picture Collection"/>
Image 6:	<input type="button" value="Browse"/>	<input type="button" value="See Picture Collection"/>
Back Cover Image:	<input type="button" value="Browse"/>	<input type="button" value="See Picture Collection"/>

NOTE: Depending on the speed of your internet connection, this process may take several minutes to complete. Please be patient.
